D. Identify Sections of the Bill That Will Generate the Additional Workload or Cost Increase

Lines 29-47 outline new additional reporting which would be required of districts and charter schools annually.

E. Expenditure Impact Details (Ties to totals in Section C)

List and document methodology and/or assumptions used in determining need for workload and cost increase.

List number, type, and step ranges of personnel required, including benefits.

List details of other impacted expenditure categories as shown in Section C.

List additional space requirements and cost associated with requirements of this bill.

(USE ATTACHMENTS IF NECESSARY.) We surveyed the school districts and charter schools for their estimation of what it would cost to implement this bill. Because each school district or charter school has their own fiscal system and method of reporting expenditures at the school level, the estimate needs to be made by each entity. Much of the one-time cost is for additional server capacity to be able to publish the required reports. Responses from each district is available upon request. A summary is on the next tab labeled "Survey Summary."

F. No Fiscal Impact or Will Not Require Additional Appropriations?

Specify why this bill will have no fiscal impact on your agency or institution.

Specify how you will reallocate workloads, resources, or funding sources to eliminate need for additional appropriations.

(USE ATTACHMENTS IF NECESSARY.) NA

G. If Bill Carries Its Own Appropriation:

Indicate if the amount appropriated is adequate to meet the purposes of the bill.

Are there future additional costs anticipated beyond the appropriation in the bill? The bill carries no appropriation.

H. Impact on Local Governments, Businesses, Associations, and Individuals

Specify requirements in the bill that drive the impact on local governments.

*Indicate costs or savings that are **DIRECT and MEASURABLE**. If direct and measurable data are not available, are there areas that potentially could have a fiscal impact? (USE ATTACHMENT IF NECESSARY.)*

Local School Districts/Charter Schools: Some districts responded that they would need additional server capacity, and others would need additional staff to be able to take on this additional reporting requirement.

Businesses and Associations:

Individuals:

Narrative Description of Bill: The bill would require annual posting of vendor payment data and salary data for each school district and charter school on their webpage. The posting would coincide with the audit report deadlines.
